

Head of IP Operations BASF Agricultural Solutions (m/f/d)

BASF seeks a Head of IP Operations to lead our global, multi-tiered IP Operations team within our newly built IP unit in Agricultural Solutions (AP).

What you will find:

- In your new role as Head of IP Operations, you are responsible for the local disciplinary and global operational management of AP's IP backbone including paralegal and IP admin support.
- You take over the global operational management of IP clerks (IP-paralegals and IP-administration) in Limburgerhof/Germany and Gent/Belgium), including interface management with patent attorneys in all AP-IP locations.
- You manage the interface with the central IP management system (IPMS)
- You assume responsibility for the interface management with patent offices, external IP service providers and law firms.

What you offer:

- Formal IP qualification (e.g., patent attorney or trained paralegal) with at least 8 years of experience in IP and 5 years in a leading position with IP admin/ IP support responsibility
- Expertise handling IP management systems like Anaquas IPMS
- Skilled in analyzing legal regulations, drawing conclusions as well as communicating to stakeholders
- Excellent interpersonal, written and oral communication skills, with a strong commitment to building relationships within the global IP community and an entrepreneurial mindset
- Language skills: German (fluent), English (advanced)

What we offer:

- Attractive salary, company pension scheme, stock share program for employees, insurances and value account
- Inspiring networks for the development and implementation of your ideas (e.g. Women in Business)
- Mentoring programs and learning opportunities for your professional and personal development•

How to reach us:

- Lea Sophie Guenther (Talent Acquisition), lea-sophie.guenther@basf.com, Tel.: +49 30 2005 56150

The new BASF AP company will be founded soon. Details on contract processes will be explained during the interview.
